SUMMARY

Bachelor's in Computer Science and Full Stack Certificate from University of California, Los Angeles with a life-long commitment to learning and growing in the technical field. Pursuing a position as a Full Stack developer to apply front-end and back-end knowledge. Dedicated to combining creativity and problem solving to develop clean code for user-friendly applications and websites. Known among staff for leadership, team work, and attention to detail no matter the complexity of the project. Aiming to develop my own online retail company by utilizing sales channels like Amazon & eBay Marketplaces.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript, jQuery, Bootstrap, Firebase, Node Js, MySQL, MongoDB, Express, Handelbars.js & ReactJS.

Applications: Brackets, Visual Studio Code, Notepad++, Git Bash, Adobe XD, Node.js

PROJECTS

Project Name: AI Face & Mouth Detection

<https://github.com/moelak/face-and-mouth-detection> | <https://moelak.github.io/face-and-mouth-detection/>

- **Summary:** Created a Face Detection to recognize user expressions then display an appropriate rendered message to the current expression. Created a Mouth Detection that knows when the user is speaking and will unmute the microphone. As soon as the user stops speaking the microphone will be muted again.
- **Responsibilities:** Front End: Dynamic Navigation Bar, Logo, completely worked on Face Detection Expression, About Us and Developer Sections, also the Footer and all dynamic Buttons. Back End: Gained access to webcam and linked facial recognition API to determine the user's expression. When the facial recognition detects an emotion, it is displayed in the demographic section to the left of the camera. Connected Joke Rendering API to the Feeling section to display a joke based off the user's current expression.
- **Tools / Languages:** HTML, CSS, Foundation, JavaScript, jQuery, Face API, Ajax, Font Awesome

Project Name: Password Generator

https://github.com/shadysaleh01/password_Generator | https://shadysaleh01.github.io/password_Generator/

- **Summary:** Created a random password generator which emphasizes the use of Javascript to make dynamic changes to an HTML document.
- **Tools / Languages:** HTML, CSS, JavaScript and Visual Studio Code

Project Name: Work-Day-Scheduler

<https://github.com/shadysaleh01/Work-Day-Scheduler> | <https://shadysaleh01.github.io/Work-Day-Scheduler/>

- **Summary:** Created a day planner with an eight-hour work day. The task manager aspect saves entries to local storage.
- **Tools / Languages:** HTML, CSS, JavaScript, moment.js, and Visual Studio Code.

EXPERIENCE

1st Camera Assistant

THE SOUNDFIELD POST

2017-2020

West Hollywood, CA

- Ensure equipment is at par with studio standards; utilize problem solving skills to handle any problems that come up during production shoots.
- Communicated and collaborated with cinematographer, sound mixer and coordinators for shoot list.
- Downloaded footage and maintained camera gear and slate scenes to Director's discretion.

Event Organizer

2011-2017

Aswani Media

Mohandessin, Cairo

- Planned event details such as location, time, and budget.
- Led up to 150 staff from different departments of the event which included parking, security, cleaning, and greeters.
- Coordinated with various food, snacks, and beverage vendors such as McDonalds, KFC, Pepsi and Cook Door to set up food trucks at the events.
- Designed promotional items for staff to wear during events and distribute to event goers.
- Enforced staff dress code rules.

Key Accomplishments:

- Responsible for creating new sales opportunities in order to increase event profits.
- Trusted to make major decisions for the company without consulting the owner.
- Became the Director of Operations and was in charge of leading all the supervisors in the company.
- Recognized for outstanding leadership skills by the owner of the company.

EDUCATION**Full Stack Web Development Certificate:** University of California, Los Angeles,

A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, JavaScript, jQuery, Bootstrap, Firebase, Node Js, MySQL, MongoDB, Express, Handelbars.js & ReactJS.

B.S. in Computer Science: New Cairo Academy, Cairo, Egypt
